

2019 ONAPA STEWARDSHIP PROJECTS

April - November

Project registration on the ONAPA website is required so we can plan ahead appropriately. If the project is cancelled, it will be posted on the website and you will receive an email the day before, if you registered. The project will be rescheduled.

These stewardship projects represent important habitat management to be conducted on state nature preserves and other natural areas. Detailed descriptions of the projects, with times and directions to the preserve, will be posted on our website in March.
