

ONAPA STEWARDSHIP PROJECTS FOR APRIL-NOVEMBER 2021

Project registration on the ONAPA website is recommended so we can plan ahead appropriately. If the project is cancelled, it will be posted on the website and you will receive an email the day before, if you registered. The project will likely be rescheduled.

These stewardship projects represent important habitat management to be conducted on state nature preserves and other natural areas in Ohio. Detailed descriptions of the projects, with directions to the preserve, are posted on our website at www.onapa.org.
